GROUP**

Tuesday

October 15, 2019

1 pm – 2 pm

Livingston

Senior/Community Center

204 Hillside Avenue, Lower Level

Tahaney Room 1

Approximately 50 million adults in the U.S. are affected by some form of arthritis. Many of those cases suffer from osteoarthritis, which is degenerative, and a small percentage suffer from rheumatoid arthritis and psoriatic arthritis, autoimmune disorders that inflame the lining of the joints.

Our expert will provide an overview of different types of arthritis, with a focus on symptoms, diagnosis, and new treatment and management strategies.

Light refreshments will be provided

Registration Required: Call 973-535-7961 ext. 227 or 228
or email jekelly@livingstonnj.org
