# Sciensational Workshop! “The Incredible Wall Hugging Mouse Robot”

Workshop will be held Thursday, Nov 8<sup>th</sup> & Friday, Nov 9<sup>th</sup>  
9:00 a.m. – 4:00 p.m.

At the Livingston Senior/Community Center

Ages: 7—12 years old

Limit: 20 participants

Instructor: Sciensational Staff

Location: LSCC-1<sup>st</sup> Floor

Fee: \$160.00

**Wow! Join Sciensational Workshops and build your own wall hugging mouse robot which you can take home. When the bump sensor makes contact with the wall, a switch motor directs power to left motor. This simple behavior allows this incredible mouse to follow any vertical surface on the left. You will see all of this amazing action after building your own! Your mouse can be decorated with eyes, ears, and whiskers stickers or draw your own! Learning through the inquiry method and STEM based principles, you will also build other robots working in smaller groups. Build a sumo wrestler, have tug of war events, and make the robots perform creative things for your group. Robots in this portion of the workshop are not taken home.**

Register online through Community Pass under Fall 2018 Preschool Specialty & Youth Programs or in our office at 204 Hillside Ave.
