

WATER CONSERVATION Livingston Environmental Commission

NEW JERSEY WATER SAVERS

The Township of Livingston was one of the first five municipalities statewide to participate in the water conservation pilot program known as New Jersey Water Savers developed by the Rutgers Cooperative Extension Water Resources Program and the New Jersey Department of Environmental Protection, Division of Water Resources and the United States Environmental Protection Agency, Region 2, in 2007.

New Jersey Water Savers implemented the following efforts in Livingston over the last three years:

Demonstration projects such as the retrofit of low flow toilets, urinals and sinks at Monmouth Court Community Center, a Rain Garden at the Livingston Township Library and developed a demonstration project plan for Heritage Middle School.

This program provided outreach and educational efforts such as the Build a Rain Garden Program, Fix a Leak Week and Smart Irrigation Month and the Build Your Own Rain Barrel Program. New Jersey Water Savers were on hand at National Night Out and the Art at the Oval/ Eco-Fair.
